## ETHOS

We work in collaboration with Les Caves de Pyrene a leading importer of 'natural' wines. We subscribe to their belief in wines that are expressive of their homeland; made by hand with minimal chemical intervention; where the winemaking shows maximum respect for the environment. The wines are made either sustainably, organically or biodynamically many are unfiltered and unrefined and may look cloudy and have some sediment. This is exactly how they are supposed to be, nothing added and nothing taken away. Enjoy!
